

## RESTRICTED FEEDERS:

Feeders are the power lines through which electricity is transmitted in power systems. THI Feeders are shown below and feeders that do not have capacity are noted as not taking applications. Future growth/additional load will allow for further generation connections, however this is a floating target that cannot be predicted. If you would like to submit an application, the project will be added to our queue and we would contact you should capacity become available.

Station	Feeder	Owner	Voltage (kV)	Available Capacity	Restricted Feeder
Tillsonburg TS	M5	Tillsonburg	16/27.6	19,000kW	NO
Tillsonburg TS	M6	Tillsonburg	16/27.6	19,000kW	NO
Tillsonburg TS	M7	Tillsonburg	16/27.6	14,000kW	NO
Tillsonburg TS	M8	Tillsonburg	16/27.6	19,000kW	NO
